Study Tips

- **Spread out study time** over the week; we learn best when practice is spaced
 - If you have 30 minutes to invest, split it over 3 sessions
 - Prioritize reading practice if your time is limited
- Use the QR code to access the **recordings**
- When stuck, review the sounds of the letters and vowels on 1st page
- Set up a study date with a **study-buddy**; keep each other **accountable** by reading together at least once a week
